If you need something that is not listed please ask.

JANE IS YOUR PERSONAL TUTOR

Many training establishments use E-learning, and say "Have a go, just follow it through". This can often leave delegates struggling and having to ask for assistance, which can be time consuming, stressful and humiliating, particularly if in a classroom situation.

One-to-one tuition is not like that. It is not humiliating. Jane will explain and clearly demonstrate each process. She will then watch and guide you through it. You can repeat something as many times as you like and ask as many questions as you wish, and no-one else is watching.

Another advantage of learning on your own device is that you are learning to use the software/app versions that you have, so you know that what you learn works on your device!

Jane is your **very patient** personal coach and is there to help you.

Collins Dictionary definitions:

TRAINING - "the process of educating". This could be E-learning or following handouts.

TUITION - "teaching, instruction, and private coaching". **This is exactly what you get with one-to-one tuition.**

Believe me, there is quite a difference!
