*[Lyrics]*

They gave their lives for their country and we'll honour them forever.  
Remember too all our loved ones not here today.  
Each crimson poppy every year has got a name written on it,  
so stand at ease and rest in peace, your fight is over.

There's a tree in a field with golden corn all around it.  
Majestic tree, an ancient tree, a mighty oak.  
And that tree in the field has got your name written on it,  
I feel your strength beside me where 'er I go.

There's a wave out at sea that's got your name written on it.  
The biggest wave, a white capped wave, I know you're there.  
There's a cloud in the sky that's got your name written on it,  
the fluffy cloud that follows me where 'er I go.

There's a star in the sky that's got your name written on it.  
The brightest star, the twinkliest star belongs to you.  
I know you're there, watching me, my own guardian angel.  
Watch over me, wait patiently 'till we're together.
